### Website selling ornamental plants

7/2023 - 1/2023

Build a website to sell ornamental plants

-Number of members: 01 (self-study project, individual).

-Technology used:

+Front-end: HTML, CSS, Bootstrap.

+Back-end: Laravel, PHP.

-Main function description:

Sell ornamental plants online, suggest products upon request.

## ACTIVITY

### Volunteers

7/2022 - 8/2022

Summer volunteer group

- Participate in school painting for children.
- Support localities to reclaim land.

Lesson learned:

Practicing volunteer activities has helped me become more confident, more mature, and gain life skills and teamwork skills... For me, this is the best training environment for students. Experience life and no longer feel confused when officially entering daily life.
